Int. J. Pres. Ves. & Piping **30** (1987) 405–407

CONTENTS OF VOLUME 30

Number 1

On Asymptotic Solutions of an Elliptic Hole with Small Parameter $(a-b)/2a$ in a Circular Cylindrical Shell 1
CHEN GUODONG (People's Republic of China)

Crack Arrest Investigations on Rotating Discs 23
E. ROOS and H. GRIESINGER (Federal Republic of Germany)

Study of Internal Pressure Creep Strength of Hastelloy X Cylindrical Specimen Containing an Axial Surface Notch 37
RYOICHI KURIHARA and SYUZO UEDA (Japan)

A Theory of Autofrettage with Applications to Creep and Fatigue . . . 57
D. W. A. REES (Great Britain)

Number 2

An Investigation of the Brazier Effect of a Cylindrical Tube under Pure Elastic–Plastic Bending 77
L. C. ZHANG and T. X. YU (People's Republic of China)

Systematic Correction of Stiffness of a Finite Element Model by Means of Measured Eigenvalues and Derivation of Concrete Identification Factors of a Dowel Connection 87
F. STEINWENDER and R. NORDMANN (Federal Republic of Germany)

Failure of Components with Surface Cracks of the Containment Steel 15MnNi63 109
D. MUNZ and S. MÜLLER (Federal Republic of Germany)

A Computer Program for Cylindrical Shell Analysis 131
ONG LIN SENG (Singapore)

An Accurate Simple Model to Evaluate Integral Flange Rotation . . . 151
DANIEL H. CASCALES and CARMELO MILITELLO (Argentina)

Int. J. Pres. Ves. & Piping (**30**) (1987)—© Elsevier Applied Science Publishers Ltd, England, 1987. Printed in Great Britain

Number 3

A Study of Slow Stable Crack Growth by the *J*-Resistance Curve Method. . 161
LIU YI and LI XIAO-WEI (People's Republic of China)

The Effect of Frequency and Environment on the Fatigue Crack Growth Behaviour of SA508 Cl. III RPV Steel 171
R. D. ACHILLES and J. H. BULLOCH (South Africa)

The Stress Analysis of Rectangular Pressure Vessels having Thin-walled Reinforcing Members 193
ZHAO-JING ZENG, JIA-JU GAO and QI-SHOU GU
(People's Republic of China)

Bolted Flanged Joint Leakage Analysis with Non-Linear Gasket Behaviour . 205
DANIEL H. CASCALES, CARMELO MILITELLO
and WALTER J. MULHALL (Argentina)

Pipe Whip: a Summary of the Damage Observed in BNL Pipe-on-Pipe Impact Tests 217
M. R. BAUM (Great Britain)

Technical Note
Elimination of Bends Data in Computer-Aided Design of Pipelines . . . 233
KAZEM ABHARY (Iran)

Book Review 237

Announcements 239

Number 4

Reductions in the Collapse Strength of Spherical Shells due to Plate Misalignment 241
M. HAMID and M. L. ROBERTS (Great Britain)

Environment Sensitive Cracking in Pressure Boundary Materials of Light Water Reactors 253
H. HÄNNINEN, I. AHO-MANTILA and K. TÖRRÖNEN (Finland)

Experimental Study of the Effect of Specimen Size on the J_R Resistance Curve of Ductile Materials 293
LI XIAO-WEI, LIU YI and TAO XUE-WEN (People's Republic of China)

The Attainment of High Values of the Applied Tearing Modulus for Circumferential Cracks in Stainless Steel Piping Systems 299
E. SMITH (Great Britain)

Analytical Model for Failure Bending Moment of Straight Pipes Including Residual Stress and Ovality 311
ANTONIO MORENO GONZÁLEZ (Spain)

Announcements 321

Number 5

On the Integrity Assessment for a Structure with Surface Flaw 325
NING JIE and GAO QING (People's Republic of China)

The Effect of an Axial Compressive Load on the Stability of a Circumferential Crack in a Stainless Steel Pipe that is Built-in at Both Ends 335
E. SMITH (Great Britain)

The Design of Piping in Plastic Conditions under Dynamic Loads 351
L. LAZZERI (Italy)

A New Method for Low Cycle Fatigue Life Analysis at High Temperature . 367
Q. GAO and X. M. GUO (People's Republic of China)

The Influence of Waveform on the Fatigue Crack Growth Behaviour of SA508 cl III RPV Steel in Various Environments 375
R. D. ACHILLES and J. H. BULLOCH (South Africa)

The Oxidation of Fecralloy Steel Co-extruded on to Strong Steel Substrates . 391
A. T. TUSON ad M. J. BENNETT (Great Britain)
